### O'Brien Fine Foods Energy Efficiency Statement

O'Brien Fine Foods is a family run business which specialises in the manufacture of premium cooked meats, which sees us cook and chill products, both requiring large amounts of energy, coming from various fuel sources. We understand that these business activities have an impact on the environment and are committed to actively finding ways to reduce our energy usage, while sourcing more efficient energy sources.

OBFF have set ambitious targets to reduce the amount of energy used, as well as our direct carbon emissions. By measuring all energy users and

To minimise our energy usage and reduce our Carbon Footprint, we are committed to:

- Develop and implement an Energy Management System to support OBFF better understand our energy usage and focus on our significant energy users.
- Set Science Based Carbon Reduction Targets
- Set annual energy reduction targets, accompanied by a review cycle for continuous improvement and signed off by the Senior Leadership Team.
- Set renewable energy generation targets to support our energy and wider carbon emission targets.
- Develop awareness campaigns and supports for employees to be more energy efficient and reduce usage (with a focus on decarbonisation).
- Perform regular energy audits, allowing OBFF to focus our efforts on our significant energy users.
- Work with our Suppliers, Customers and wider Stakeholders to focus on energy efficiency and decarbonisation of their operations.
- Develop Energy Champions across our sites to continually focus on energy efficiency and decarbonisation.
- Continue to search for ways to mitigate and adapt to the challenges posed by climate change.
- Continue to ensure that our ambitions are in line with the UN Sustainable Development Goals.

At OBFF we are committed to continual improvement of our energy performance. This policy will be communicated to all staff, contractors, and suppliers, and be available to the public through selected media.

John O'Brien, **Managing Director**
